The First Name In Trailers®

Stainless Steel Wingplates

Designed with collared holes and embossed ribs to minimize maintenance expenses from road de-icing chemicals, improving overall image.

Bottom Rail Protectors

Front and rear bottom rail protectors add versatility in intermodal transportation for railway applications. Available in steel or aluminum.

Stainless Steel Vertical & Horizontal Dock Bumper

Easy-to-clean, corrosion resistant stainless steel dock bumpers create a clean look that increases resale value and extends trailer life.

Pintle Hooks/Doubles

For better operating efficiency, pintle hooks are available for single axle, turn pike double and Canadian C-Train style dual pintle hook trailer operations.

USS-120A-4 Aerodynamic Side Skirt

SAE tested and SmartWay®-verified to attain better than 5% fuel savings, it is also CARB-compliant when used with low rolling resistance tires.

Tire Inflation Systems

Choose one of our recommended systems and maintain optimum tire pressure in order to increase fuel economy, improve safety and maximize tire life.

Anti-Dock Walk Devices & Dump Valves

A variety of anti-dock walk devices and dump valves may be used to stabilize the trailer during loading/unloading, creating a safer work environment.

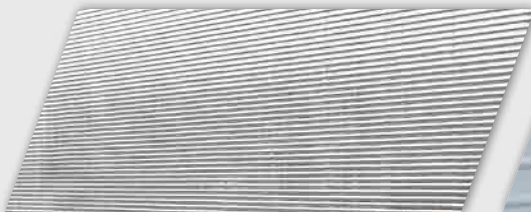

Factory-Installed Refrigeration Units & Accessories

Utility installs all models of refrigeration units, both standard single temperature units and all versions of multi-temp refrigeration units.

Air Return Bulkheads

A number of air return bulkheads are available to fit all types of refrigeration units. Several different styles of pallet stops are also available.

Stainless Steel Side Skin

Stainless steel side skins combine corrosion resistance and enhanced appearance in one package for greater resale value and better image.

Grab Handles

Stainless steel, aluminum and chrome grab handles are available in a variety of styles for improved driver safety.

Diamond Pattern Stainless Steel Door Skin

Door skin is easy to clean and resists corrosion, while the high gloss quilted design presents a unique appearance and reduces glare to following vehicles.

The First Name In Trailers®

Side & Rear Steps

Available from most manufacturers in a variety of styles, side steps and rear steps improve operator safety and provide ease of accessibility.

Customized Floor Systems

Various systems are available such as dairy or knurled styles, and extended service floors with extra-thick upper wear surfaces in both duct and flat top dry freight styles.

Custom Wearbands

Multiple heavy-duty aluminum, fiberglass reinforced plastic and HDPE plastic options are available to fit your operation's durability requirements.

Severe Service High Impact Linings

Additional thicknesses of high impact linings from multiple suppliers are available for severe service operations.

Recessed Logistic Track

Recessed logistics track allows you to use a variety of load restraining devices (straps, load bars, etc.) without sacrificing inside width.

Electrical System Options

Various clearance light packages, tracking systems, remote thermostats, tire pressure-monitoring systems and other advance technologies are available.

Clearance Light Packages

An array of LED clearance light models and configurations are available to meet the specific applications of your operation.

Shore Power Plug at Rear

The industry's best plug and wiring system, it delivers greater fuel savings during operation and improves safety with multiple grounding features.

Factory-Installed Decals

The highest quality decal installation available is completed at our factories so your trailer is ready to operate as soon as you pick it up.

Roll Up Door Installations

Utility offers roll up doors from most manufacturers to meet the unique applications of your operation.

Air Disc Brakes

This brake system reduces brake fade, increases braking performance and improves safety – creating shorter, more stable stopping distances. With an extended service life, lower maintenance costs and downtime, air disc brakes are increasingly the industry's preferred choice.
