New Side Skirt Kit

UTILITY SIDE SKIRT 23' W/ANGLE

Part# UTUSS120A

UTILITY SIDE SKIRT .120 THICK

Cut to length, top angle mounted, straight cut for universal r/s & c/s mounts

Part# UTUSS120APA

Designed by Utility Trailer*

Utility side skirts have a unique bracing system that allows the skirt to flex both inward and outward providing the operator best in class durability. The galvanized high tensile steel braces are virtually indestructible and unlike others can simply be "bent" back to their original shape if damaged. The UV protected FRP construction of the skirt gives exceptional lifetime performance. Unique mounting to the support leg "wingplate" provides optimum performance and fuel savings.

FEATURES:

- SAE tested and SmartWay® verified
- Unique bracing system allows skirt to flex both inward and outward
- One-piece fiberglass reinforced plastic construction with UV protection for durability
- CARB Compliant**
- Real world tested for strength and durability

*** This bulletin is not intended to provide legal advice or a legal opinion as to the applicability of the California regulation to any particular end use.*

PATENT PENDING

Galvanized high tensile skirt braces for unsurpassed durability
