Troy, MI 48064-7186

DATE: AUGUST 2004

SUBJECT: GENERAL BEARING - New Standard Bearing Supplier

Dear Customer,

ArvinMeritor is pleased to announce that General Bearing has been selected as our standard wheel bearing supplier.

Effective late September 2004, all dressed TN and TQ axle models, assembled with wheel-end equipment, will be standard with General bearings instead of Timken. Later in 2004, this change will also apply to dressed TP and TR axles.

Based on comprehensive product testing, ArvinMeritor has concluded that General bearings meet our rigorous performance and quality standards. Top-level specifications (part numbers) will be maintained.

Should you have further questions, please contact your ArvinMeritor account representative or the ArvinMeritor Customer Service Center at 800-535-5560.

Camilo Camargo
