### Proper Wheel-End Installation Procedures

Webb Wheel Products has produced training videos to familiarize and train personnel on proper brake drum installation procedures. The procedures reflect the TMC and SAE recommended practices. This Service Bulletin will help ensure your wheel-end products are installed and maintained correctly.

Access to these training videos is on-line. Please follow the links below to Webb Wheel's Training Toolbox. Three videos are available which cover wheel-end installation procedures and possible consequences if correct procedures are not followed:

You will need an internet connection to view. Press Ctrl + Click link to activate.
